*PLUSH*

This new concept has been developed to provide luxury toilet facilities in any covered area. The unique folding design enables it to be moved easily and installed rapidly and will even pass through a standard door way.

This modular system can be supplied with any combination of cubicles, vanity basins and urinal stations to provide luxury toilets to satisfy customer's individual requirements.

There are no access problems giving you and all your guests a floor level entrance.

State of the art environmentally friendly vacuum technology is used which requires no chemical

additives.

Plush mobile toilets ltd offers a personal and friendly service.

With flexiloo you can be sure your event will be catered for with first class facilities
